DETAILED ACTION

1. This action is responsive to communications: The Amendment filed 07/01/09.
2. Claims 72-83 have been added as necessitated by Amendment.
3. Claims 4-6, 10, 12, 17-19, and 31 have been cancelled as necessitated by Amendment.
4. All previous rejections to the claims have been withdrawn as necessitated by Amendment.
5. Claim 63 has been amended by the Examiner, which is discussed below in the Examiner's Amendment section.
6. Claims 1, 7-9, 11, 13, 20-22, 28-30, and 51-83 are allowed as necessitated by the Amendment and the Examiner's Amendment.

Drawings

7. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because drawings are not clear which renders them difficult to read/interpret. Figures 1-5 appear to be either hand drawings or scanned image captures wherein the reference numbers, drawing text, and component edges are difficult to distinguish. Appropriate correction is required. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

8. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The amendment below has been made to correct a minor lack of antecedent basis problem between independent claim 11 and dependent claim 63, wherein independent claim 11 is distinct from the other independent claims because the form calculation was defined as a spreadsheet and not as a database query.

The Application has been amended as follows:

Claim 63 (Currently Amended) The computer system of claim 62, further comprising:

upon the selection of the hyperlink by the user, a dialog for setting up configuration of the ~~database query~~ spreadsheet being displayed

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Please note the additionally cited references on the accompanying PTO-892 form.
